Projects

PERSONAL PORTFOLIO (Data Analyst) ⧉
I made a Data Analyst portfolio with all of my projects.

HOUSE SALE EXPLORATORY (PYTHON) ⧉
This project is to compare different variables and know which ones are related when choosing a house to buy.

DATA CLEANING (SQL) ⧉
In this project I take raw housing data and transform it in SQL Server to make it more usable for analysis

BUDGET (POWER BI) ⧉
This project is a representation of what an accountant can add value to a company or client. Comparison of actual spending against your budget.

COVID 19 DATA EXPLORATION (SQL) ⧉
In this project we use SQL Server to explore global COVID 19 data.

BIKES SALES (EXCEL) ⧉
Excel Dashboards for projects on Bikes Sales, with tables pivote.

PRICE PER BEDROOMS (TABLEAU) ⧉
With Tableau, I developed a dashboard to know on which dates and in which places it is convenient to rent your apartment.

PROFESSIONAL SURVEY (POWER BI) ⧉
I developed a dashboard about a survey of the different jobs in the world of data

DATA WORLD CUP (TABLEAU) ⧉
It is a dashboard with the most important data of all the world cups between 1930-2022
