Experience | Projects

AMAZON WEB SCRAPER (PYTHON) ⬈
Through Python I extracted the data from the Amazon page and I created an Excel CSV file with that data.

DATA WORLD CUP (TABLEAU) ⬈
It is a dashboard with the most important data of all the world cups between 1930-2022

PROFESSIONAL SURVEY (POWER BI) ⬈
I developed a dashboard about a survey of the different jobs in the world of data

DATA CLEANING (SQL) ⬈
In this project I take raw housing data and transform it in SQL Server to make it more usable for analysis

COVID 19 DATA EXPLORATION (SQL) ⬈
In this project we use SQL Server to explore global COVID 19 data.

PRICE PER BEDROOMS (TABLEAU) ⬈
With Tableau, I developed a dashboard to know on which dates and in which places it is convenient to rent your apartment.

BIKES SALES (EXCEL) ⬈
Excel Dashboards for projects on Bikes Sales, with tables pivote.

PERSONAL PORTFOLIO (JS) ⬈
In my first project I created a portfolio, using HTML and CSS

PERSONAL PORTFOLIO (REACT) ⬈
My second big project, a portfolio but in this case with React. A great challenge and experience with this Javascript library
